**DETAILED ACTION**

***RESPONSE TO AMENDMENT***

1. The applicant's amendment filed on 06/13/2006 has been fully considered and made of record.

**EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 5, line 2, the phrase "claim 4" should read - - claim 1 - - to correct the dependency of the claim.

**REASONS FOR ALLOWANCE**

3. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art fails to teach or fairly suggest the series of steps recited, particularly the step wherein the faces of the armoring ring are structured conically, with mirror-image symmetry relative to one another, and have the same incline as the depression edge region of the piston blanks. Applicant incorporated the previously indicated allowable subject matter of claim 4 and intervening claim 3 into independent claim 1.

Accordingly, claims 1-2, and 5-6, as amended are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
